KORNILOFF'S TROOPS MAY FIGHT KERENSKY'S

While Conditions Continue to Improve in Russia, Revolt Has By No Means Been Crushed.

While optimism seems to prevail in the provisional government in Russia that a successful issue of the counter-revolution started by General Korniloff soon will be returned in favor of Premier Kerensky, the situation still remains most acute. All dispatches from Petrograd at present are emanating from the provisional government or supporters of Kerensky.

Late reports from Petrograd indicate Korniloff's march on Petrograd has been checked and that his retreat has been cut off; also that there have been further defections from the ranks of Korniloff and that a great majority statement issued by the vice premier said the country undoubtedly was with Kerensky, "who is defending the revolution against General Korniloff, the of the commanders at the front are still adhering to the government. A defender of the reactionaries."

Meanwhile the spirit of unrest seems to have invaded Moscow, where martial law has been declared and government forces are maintaining order.

The central committee of the constitutional democratic party has offered to aid in the reconstitution of the cabinet so as to avoid civil war.

WILD DISORDERS PRE-VAIL IN ARGENTINA

Blocks of Business Houses Burn in Buenos Aires With Mounted Guards Powerless to Restore Quiet.

Buenos Ayres, Sept. 12.—Immense crowds joined in an anti-German demonstration here this afternoon. The German legation and German newspaper buildings were stoned. There was serious rioting and mounted police charged the mobs in the fashionable Avenida Florida. Despite the strong mounted guard, a mob broke all the windows in the office of the newspaper La Union.

The German club and a German newspaper building were set on fire by the mob.

The downtown section of the city was the scene of the wildest disorders tonight in connection with great anti-German demonstrations, in which thousands of Argentians took part. Many of those in the mob carried fire-brands, and as a result scores of buildings were set on fire. Several blocks of German business houses in Calle 25 re Mayo were destroyed.

THE CRISIS

"The Crisis," the elaborate film version of Winston Churchill's great story, and the only historic novel of Missouri, was given at the Gem theatre, Wednesday night.

The play was deeply patriotic and the orchestra played selections appropriate to the different scenes.

Those who had read the book had no difficulty in naming the characters as they appeared on the screen, so true to the description were they shown. The picture was one of the best ever brought to Monett and the theatre was crowded.
